Summary

Software Engineer with strong expertise in backend development, cloud-based architectures, and API design, with proven experience building scalable and reliable systems. Competitive programmer with achievements in ICPC and national contests, passionate about problem-solving and continuous learning.

Experience

Software Engineer I, CloudEva Healthcare MVP

Mar 2025 – Present

- Resolved backend bottlenecks blocking the asynchronous event loop; redesigned authentication with **refresh tokens** and optimized database queries with proper indexing.
- Led backend development for a healthcare MVP, designing scalable **APIs**, system architecture, practitioner workflows, and managing email flows using **AWS** and **AWS SES**.
- Built a multi-package subscription and billing system with **Stripe**, supporting scalable automated workflows and seamless customer portal access.
- Authored a document on indexing and backend best practices at management's request, sharing optimizations to enhance scalability across the company.

End-to-End Serverless Analytics System

- Led a full migration from **AWS Amplify Gen 1** to **Gen 2**, rebuilding backend services with **Lambda**, **API Gateway**, **Cognito**, and **DynamoDB** to deliver a more reliable and cost-efficient system.
- Developed an **Admin Portal** with complete backend API layer and role-based access control (RBAC), integrated **Amazon QuickSight** for dynamic dashboards and personalized analytics.

Athlete Jobs & Engagement Platform

- Launched the freemium version of the application with user-tier restrictions and feature gating.
- Integrated **HubSpot CRM** and **Twilio SMS** verification to streamline lead tracking and onboarding.
- Recognized for creating a detailed guide on reliable, spam-free email delivery using **Resend**, **CloudFront**, and subdomain-based **DKIM/DMARC** and DNS configuration.

Cross-Functional Leadership & Communication

- Demonstrated strong cross-team communication with designers, PMs, and other engineering teams.
- Successfully led a full product module from planning to deployment, collaborating directly with stakeholders.
- Presented weekly development updates to clients, handled requirement clarification, and resolved technical concerns proactively.

Academic Awards & Achievements

Silver Medalist, ICPC Onsite Regional Contest	2025
1st Runner Up, CODEFEST 3.0 Competitive Programming @ PUCIT	2023
1st Runner Up, Visio Spark Competitive Programming @ COMSATS	2024

Education

PUCIT (Punjab University College of Information and Technology)

2021 – 2025

BS in Data Science

- GPA: 3.68/4.0
- Coursework:** Object Oriented Programming, Data Structure & Algorithms, Web Development, Machine Learning
- Teaching Assistance:** Linear Algebra, Programming Fundamental, Object Oriented Programming

Technical Skills

Core Technologies: Python, FastAPI, PostgreSQL, AWS, Stripe, Mollie, Memberful, Git, Github

Familiar Technologies Javascript, Java, Mysql, Django, Langchain, HTML, CSS, Bootstrap, NextJS.
